Hi Angela,

Just getting back to you to confirm that I received your email since it's been a while. Coordinating this event has required me to discuss a lot of logistical things with the university.

Please understand that at this point I have not yet received explicit approval from the University for the event to happen, but it is looking very good. I have responded to your questions with preliminary answers below.

**1) what topic / theme would you like Yaron to address?**

MSOE, as an engineering focused school, is very interested in technology, innovation, and entrepreneurship. All of these concepts benefit greatly from a free and capitalist society. I think this is something Dr. Brook could talk about.

**2) How many students would you expect? would it be just the MSOE Libertarians or would it be open to the entire school? Would the public be allowed to attend?**

I would personally aim for around 30 people coming, but we could end up having some more or some less than that. The event will be open to the entire MSOE community for sure, but I have not gotten approval for the public to be allowed.

**3) would you be able to video tape the event?**

Absolutely! I am still working on the venue but will get the AV guys to set up a camera and microphone. Our new auditorium has a great setup for taping speakers and that is what I am aiming for.

**4) what is your typical format for a speaker? 30-40 minute talk followed by 15 - 20 minutes of open QnA?**

30-40 minute talk followed by 15 - 20 minutes of open QnA sounds perfect.

**5) any special COVID guidelines we should be aware of ?**

Masks are required in our buildings at this time, however I don't think Yaron will need to wear a mask when he is speaking on stage. When he is not on the stage speaking, he will have to wear a mask. There are no restrictions regarding capacity, social distancing, etc.

Is there a specific time that Yaron would prefer the event to begin around? How does 6 PM sound?

Thank you!

John

Dear John,

We are very excited at the possibility of having Yaron speak at MSOE. The afternoon of Friday, April 22 works best.

I have a few questions and if easier, we can chat by phone to hammer out the details....

- 1) what topic / theme would you like Yaron to address?
- 2) How many students would you expect? would it be just the MSOE Libertarians or would it be open to the entire school? Would the public be allowed to attend?
- 3) would you be able to video tape the event?
- 4) what is your typical format for a speaker? 30-40 minute talk followed by 15 - 20 minutes of open QnA?
- 5) any special COVID guidelines we should be aware of ?

Sincerely,  
Angela Dietrich

Angela,

Thank you for reaching out to MSOE Libertarians!

We would be very interested in hosting Dr. Brook to speak at our university. I actually read a copy of his book, Free Market Revolution, from our school library.

Milwaukee School of Engineering is fully in-person and I can organize an in-person event on the afternoon of April 21<sup>st</sup> or 22<sup>nd</sup> .

Please understand that Milwaukee School of Engineering is a small school, and our group is proportionally small. We can't offer an honorarium with our limited funds, however we can offer free parking on our campus in the heart of downtown Milwaukee for the day, as well as raising awareness of Dr. Yaron Brook and any shows or books he'd like our group to advertise on campus. The event would be open to all students, and possibly the public if I can arrange that.

Is that something Dr. Brook would be open to doing?

Thanks,

John

[EXTERNAL]

Dear John,

My boss, Dr. Yaron Brook is an international speaker whom your club might enjoy. Dr. Brook covers a variety of topics from Capitalism, business ethics, free markets, social responsibility, role of government, individualism, tribalism, pursuing happiness and creating a life with value along with many others. More about Dr. Brook can be found at <https://yaronbrookshow.com/about-yaron-brook/>.

Would your group be interested in having Yaron Brook speak at an upcoming event this coming spring / fall? We would love to include your group in his upcoming tour. PS: Dr. Brook will be in the Milwaukee area April 21-22 and could easily add your group to his tour in April.

Please note, Dr. Brook also does virtual talks, debates and panels if your school has gone remote learning

Sincerely,

Angela Dietrich
