Hi John,

Great to hear from you! I'm excited to be the advisor for the club next fall. I just joined the Discord via the link you sent. Please let me know if there's any other way I can help. (I'd be happy to assist with in-person events as well if I'm needed.)

The electronic shooting gallery you built looks awesome! Look forward to having you in my linear algebra class in the fall!

Thanks,  
Brandon Reid

Hi Dr. Reid,

Thank you so much for being the staff advisor for MSOE Libertarians for next fall. We're a brand new organization as of this spring but we've already made a difference on campus and I'm glad we were able to keep the club going for next year.

Your mission, should you choose to accept it, is not a particularly difficult one. I'll be sending you infrequent updates on what we have been up to and what we plan on doing, but you won't need to do much at all unless you choose to be more involved with the club. We primarily need a staff advisor for Campus Life to let us exist.

I built an electronic shooting gallery for the Spring Field Day this past weekend, and that was a hit. Our club is totally different from other clubs on campus in that we don't meet in person except for these events. Asynchronous classes showed us that it was possible, and even better, to be able to chat about current events as they happen online. Meeting primarily online also makes being a club member more accessible for people who live off campus vs traditional in-person meetings. We intend to keep this format even after COVID is gone.

The club has a fun, laid back atmosphere and I think your personality fits great with it.

If you would like to join our club Discord to join in our conversations, you can use this link: <https://discord.gg/aWPMJzSves>

If you want to learn more about us, our website is at <http://msoelib.ml>. I would be more than happy to answer any questions you may have about the club or the position.

See you next fall for Linear Algebra?

John Bilkey  
President of MSOE Libertarians
